

# I'M WORRIED ABOUT MY CHILD'S SPEECH. WHAT DO I DO?

## TRUST YOUR GUT

You know your child best and you are the expert about your child.

## CONTACT YOUR PEDIATRICIAN

Your pediatrician may be able to refer you for a speech/language evaluation that is covered by your insurance, along with any necessary providers such as audiology or ENT.

## CONNECT WITH A LOCAL SLP

You can also seek out private services with a local SLP, typically private pay or out-of-pocket cost. Contact Allie to determine if an evaluation, therapy, or virtual enrichment group is the right fit for you and your family.

## CHECK YOUR EARLY INTERVENTION AGENCY OR SCHOOL DISTRICT

Your local Early Intervention agency (under 3 years) or school district (over 3 years) offers free or low-cost services. Call them to start the assessment process.

# AN EVALUATION IS JUST A "CHECK-IN" TO GATHER MORE INFORMATION

*Fun and functional speech, language and feeding therapies*
